

VORTRONIC® ELECTROSTATIC FILTER SERIES

- Clears air of tobacco smoke, dust, pollen, etc., in bedrooms, childrens rooms, offices, shops, pubs, etc.
- Electrostatic filter has strong air-purification action which attracts even very small particles like a magnet.
- Activated carbon fibre filter which needs periodic replacement removes odours effectively. The Model 200T has a supplementary granular active-carbon filter.
- Three speeds provide silent operation which makes this unit suitable for night time use.
- Safe operation. Unit turns off whenever the filter door is opened or when the filter is saturated (indicator light turns on).
- Complies with the CEI EN 60335-2-65 standard.
- Indicator lights show GREEN (for ON), YELLOW (for ionising) and RED (for saturated filter).
- Can be used with or without ioniser.
- Table models 50 and 100 can also be wall-mounted using the optional kit. The 200T model is supplied with wheels to enable it to be easily moved from room to room.
- Floor stand included.

Design: F. Trabucco & Associates

* Available only in UK

Particularly useful for bedrooms.

Also useful in smoking rooms.

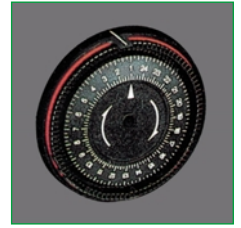

The 200 T model is designed for larger rooms in community buildings or businesses.

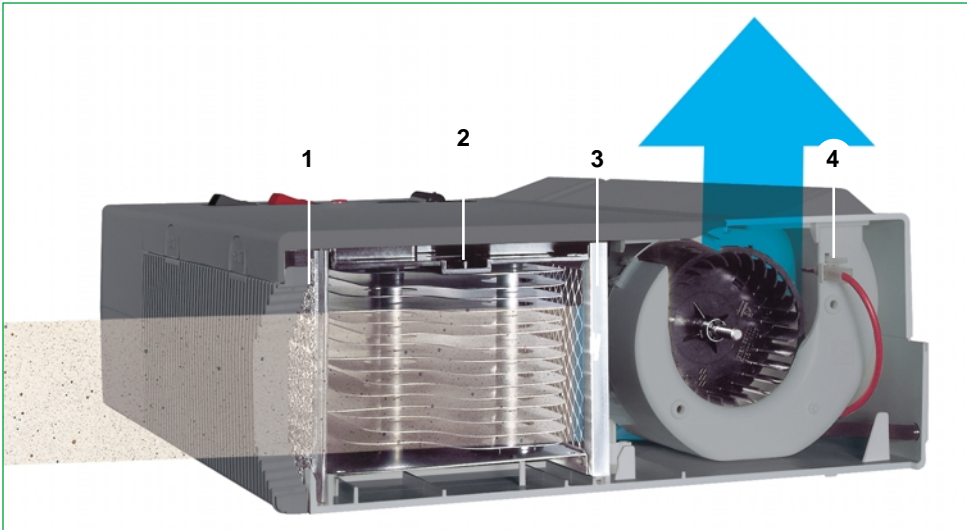

Washable metallic pre-filter.

Washable electrostatic filter.

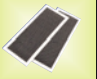

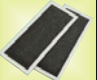

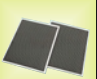

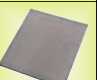

The model 200 T is supplied with a daily programmer with 15 minute settings (min).

- ❶ Metallic pre-filter traps particles and dust.
- ❷ Electronically-controlled electrostatic filter eliminates air impurities.
- ❸ Activated-carbon filter eliminates most odours.
- ❹ Ionising electrode brushes improve and biologically revitalise air quality.
