COMFORTSERIE

COMFORT SERIE

COMFORT AND DESIGN

Your family and friends can share laughter and good conversation while enjoying the comfortable seating of one of our Fonteyn Comfort Spas. The spa will create an ideal setting to rejuvenate and relax.

The Spas from this serie are Plug&Play easy to install, and do not take much space in your garden.

HYDROTHERAPY

The hydrotherapy jets provide a soothing massage to relax your body. The jets are strategically positioned and always rotational to ensure a silky smooth experience and are sure to delight your senses.

CRYSTAL CLEAN WATER

Our filtration system automatically filters your spa water for a sparkling clean shine. Select our optional AquaPure Water Management System™ for a self contained water purification system. This advanced solution is a natural way to create sanitizer and will ensure that your spa water is safe and clean for you and your family to enjoy.

QUALITY OF CONSTRUCTION

Fonteyn Comfort Spas are constructed with a pressure treated support structure giving you peace of mind and long lasting performance. Our spas are made with a maintenance free cabinet which is snugly fastened to the pressure treated support structure.

ENERGY EFFICIENT

We use a double insulation in our Fonteyn Comfort Spas. Poly urethane foam on the spa shell and Polu Styrene on the cabinet. This way the heat of the pumps stays inside the cabinet to maximize heat retention and minimize energy consumption.
