

HELISEA 110
230 V/50 Hz - 450W
Ideale per bagni fino a 6 m²
Barre porta-salviette: 6 (3 + 3)
+ 2 ganci porta-accappatoi
Misura in cm: 101 x 52 x 16,5
(massima distanza dal muro)
Versione alluminio

ACANTO 70
230 V/50 Hz - 300W
Ideale per bagni fino a 4 m²
Barre porta-salviette: 2
Misura in cm: 71 x 52 x 16,5
(massima distanza dal muro)
Versione bianca

HELISEA ACANTO
1 022010

Double heating surface
Immediate comfort
Heats hand and bath towels
Low energy consumption

MAKE YOUR BATHROOM MORE WELCOMING AND COMFORTABLE WITH OUR SAFE, INNOVATIVE TECHNOLOGY

Acanto: high heat performance

Helisea rotates 180°

A NEW ECOLOGICAL WAY TO DIFFUSE LOW IMPACT AND LOW ENERGY CONSUMPTION HEAT.

Acanto & Helisea, the new towel heater radiators that provide a high degree of heat while limiting energy consumption. They guarantee evenly distributed heat by irradiation, drying towels perfectly and ensuring the perfect temperature in the bathroom, just as would occur naturally with solar rays.

- Light and easy to install.
- No more costly labour!

HELISEA

ACANTO

HELISEA

Radialight technology has created the first radiant towel heater with a dual heating surface. The heat is diffused in all directions to heat twice as many towels. A simple movement allows Helisea to rotate on wall supports so that you can use one side of the unit to heat the bathroom and the other to heat towels.

Protection: IP 24
High precision thermostat + 4 position timer (15' - 30' - 60' - 120')
Double electrical insulation
Available in White and Aluminium versions

HELISEA 110
230 V/50 Hz - 450W Ideal for bathrooms up to 6 m²
Towel rails: 6 (3 + 3) + 2 bathrobe hooks
Dimensions in cm: 101 x 52 x 16,5 (maximum distance from wall)

HELISEA 70
230 V/50 Hz - 300W Ideal for bathrooms up to 4 m²
Towel rails: 4 (2 + 2)
Dimensions in cm: 71 x 52 x 16,5 (maximum distance from wall)

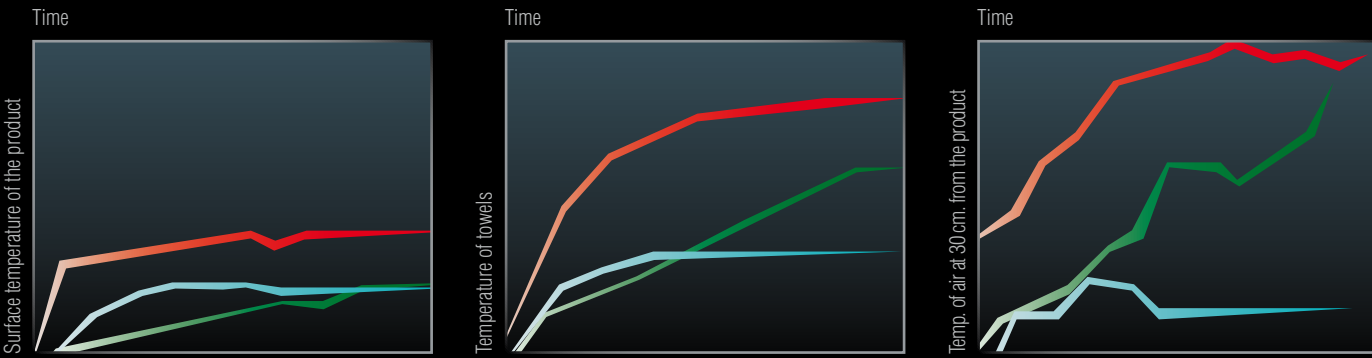

ACANTO

Radiant towel heater for fixed installation. Radialight technology has created the first radiant towel heater with its surface uniformly heated by a low energy consumption heating coil with high calorific power.

Protection: IP 24
High precision thermostat + 4 position timer (15' - 30' - 60' - 120')
Double electrical insulation
Available in White and Aluminium versions

ACANTO 110
230 V/50 Hz - 450W Ideal for bathrooms up to 6 m²
Ideal for bathrooms up to: 3 + 2 bathrobe hooks
Dimensions in cm: 101 x 52 x 16,5 (maximum distance from wall)

ACANTO 70
230 V/50 Hz - 300W Ideal for bathrooms up to 4 m²
Towel rails: 2
Dimensions in cm: 71 x 52 x 16,5 (maximum distance from wall)

- Helisea 110 towel heating radiator
- Electrical towel heating radiator with equivalent power circulation of the fluid inside
- Electrical towel heating radiator with equivalent power standard heating element

Advantages of the Radialight technology

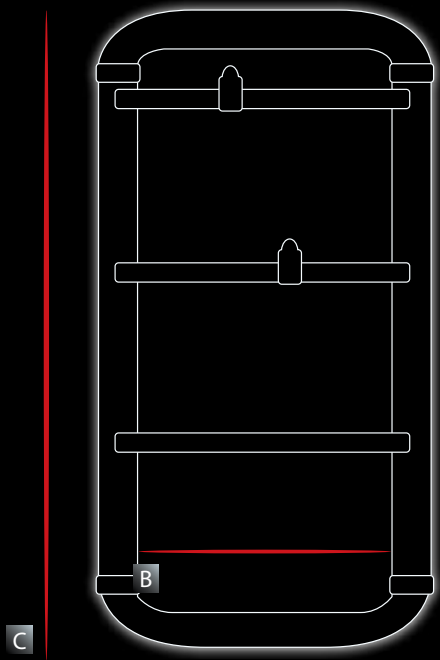

EXCELLENT HEAT DIFFUSION thanks to the immediate radiant effect of the entire surface
IMMEDIATE WARMING SENSATION: Unlike traditional towel heaters that only radiate heat 45 – 60 minutes after being switched on, Acanto and Helisea reach their working temperature in just 5 – 6 minutes.
Tests carried out comparing the HELISEA 110 radiator with other towel heater radiators show a much higher heating speed, with a more extensive, consistent, and immediate diffusion of heat in the bathroom

TESTS CARRIED OUT IN RADIALIGHT'S TECHNICAL LABORATORY

How Acanto & Helisea work

High precision electronic ambient thermostat that ensures the perfect temperature in your bathroom
4-position timer to use the unit only for the required time
